the Scope of the Arkansas Prize Fight Law Will Be Determined.

GOV. CLARKE STILL FIRM

HE REITERATES THAT NO CONTEST

OF ANY KIND WILL BE PERMITTED.

An Interview with the Champion Steve Brodie to Be Referee-Bob Fitzsimmons Still in Texas.

HOT SPRINGS, Ark., Oct. 15.—Manager Vendig and President Stuart have been in receipt of telegrams and letters by the score containing all sorts of propositions and guarantees of protection and immunity, but they are disposed to swerve from the original intention with reference to Hot Springs unless they are satisfied that under the present arrangements and change of contract the exhibition will be an infraction of tract the exhibition will be an infraction of the law. The contract as changed provides for a twenty-five-round boxing contest under Marquis of Queensberry rules, with soft gloves, which shall weigh not less than five ounces.

Just when Julian and Fitzsimmons will get here is a question that no one here seems to be able to answer. Julian sent the following telegram from Corpus Christi, Tex., to-day: "Before I leave here with the state of the public or such persons or associations as may from time to time be admitted thereto." Under this charter the people interested believe they can conduct a boxing match limited to a specified number of rounds with soft gloves without violating any State laws. When informed of this scheme Governor Clarke stated that the State chartered corporations and associations for legal purposes only, and that no violation of the law would be tolerated under the guise of amusement. He was not prepared, however, to state just

Tex., to-day: "Before I leave here with sponsible party enough money in cash to defray expenses for any and all legal difficutlies that may arise. We have been warned by the Governor and do not want to take any chances."

Corbett arrived this evening on the o'clock train, but stopped at Spring Lake, where he will make his training headquarters. He will be in the city to-morrow, and will give a show in the opera house in the evening. He fully expects to be placed under arrest, as promised by the Governor, and the people here are anxious that the whole matter shall be brought into the courts in order to settle what is really the law. By the decision of the courts the Florida Athletic Club is willing to abide. Corbett will go into training at once at Spring Lake. A force of servants has been at work here to-day getting things into

There is no cessation in the matter of the proposition to receive and entertain the visitors expected if the contest takes place, and should the Governor's ultimatum that there is no distinction between an exhibition with soft gloves for a limited number of rounds and a prize fight, and the law sustains him, and action is taken accordingly, then somebody is likely to go broke here, and that somebody's name is Legion Brigadier General Taylor, commanding the troops of the State of Arkansas. reached Hot Springs this evening, in comde Espana pany with Hon. John D. Kimball, of this city, and George Neeley, captain of the Neeley Rifles. General Taylor at once drave to the Arlington Hotel and the news of his arrival soon spread throughout the city and attracted a large crowd of interested people anxious to know the purpose of his visit. The General stated he was fresh from a conference with Governor Clarke, and from him he had received instructions to come to this city, view the situation and t take whatever steps he saw proper to prevent the contemplated "mill." These instructions, he said, were positive and were to be carried out at any and all hazards. On being asked upon what law Governor Clarke gave him a power superior to all courts, the General stated that Governor action law

this city, went to the capital yesterday for the purpose of submitting the revised articles of agreement to Governor Clarke. The chief executive is quoted as saying to Mr. Kimball that he did not consider there was much difference between a prize fight and a glove contest for a limited number of rounds, and he knew if these men got gether in the ring they would fight, and would be no child's play between them. The crowd would make them fight, even if it was their intention of engaging only in a harmless bout for points. This is the view he takes of the matter, and ex- the house was packed by a large audience pressed his determination to stop them

Joe Vendig, as the representative of the Florida Athletic Club, talked with General Taylor. Mr. Vendig assured Mr. Taylor that they were not here for the purpos of violating any of the laws of the State that they were law abiding and expected to remain so, and if they were convinced that the contemplated meeting between Corbett and Fitzsimmons in a soft-glove, limited-round contest for scientific points was a violation of any law or laws on the statute books they would agree to pack up and leave Arkansas and pull off the con-test as first agreed upon to a finish at a point where they are guaranteed absolute

It is understood to-night that Corbett will be arrested to-morrow upon the charge of threatening a breach of the peace. He will be placed under a bond of \$5,000 to keep the peace. This bond he will refuse to give, and if placed under lock and key will be taken out on a writ of habeas cor pus, which will be taken before Chancellor Leatherman for trial.

WHAT THE GOVERNOR SAYS.

The Pugilists Cannot Meet in Any Kind of Contest.

LITTLE ROCK, Ark., Oct. 15 .- Governor Clarke's determination to stop the Corbett-Fitzsimmons contest at any cost was emphasized to-day by the presence in this city of General Taylor, of Forest City, brigadier general of the Arkansas State Guard, who was summoned to the capital by telegraph to confer with the Governor in regard to the strength of the State militia. Gen. Taylor was in conference with Governor Clarke for an hour this morning, and when seen later by a reporter was preparing to take the afternoon train for Hot Springs. General Taylor said positively that the fight would not occur. His purpose in going to Hot Springs, he said, was to warn the people there against the danger to which they would subject themselves should any atrow morning, the afternoon being devoted to sight-seeing by the delegates. tempt be made to bring the contest off. the military companies. He reiterated his former declaration that the fight would not be permitted to take place, and in this connection said he could make no distinction between a prize fight and a glove contest.

"Suppose, Governor Clarke," suggested the reporter, "Corbett and Fitzsimmons should desire to give an exhibition of physical culture in Hot Springs on Oct. 31, in which large soft gloves were to be used, would that be stopped by military force?"

"Corbett and Fitzsimmons shall not meet in Hot Springs in any kind of a contest," said Governor Clarke, emphatically. "If they ever meet they will fight, and they shall not fight in Arkansas. They shall not meet in Hot Springs, either in or out of a ring. They shall not even shake hands."

When asked if Corbett would be arrested on his arrival at Hot Springs, Governor Clarke said that a good general never disclosed his plans to the enemy.

Information came from a private source to-day that the Florida Athletic Club is considering a plan by which it hopes to overcome the obstacles placed before it by Governor Clarke. The scheme is to turn the whole affair over to the Hot Springs Athletic Association. That association was incorporated by the State of Arkansas on Sept. 6, 1895, by William M. Babcock, John C. Lonsdale and Charles H. Weaver, all of Hot Springs. According to its charter While Attending Market and Their Bodies Thrown Into Wells.

LONDON, Oct. 16 .- A dispatch to the Daily News from Constantinople says: "Reliable news has been received here that fifty Armenians were killed and a number wounded at Akhissar, in the villayet of Aden, on the Anatolian railway, by a Moslem mob. The slaughter took place on Oct. 9, which was market day, when many Armenians had gathered from adjacent villages. Early in the morning a Turkish rough, finding that the Armenians were not armed, picked a quarrel and shot one of the men. There was then raised on all sides the cry of 'Why hesitate to massacre the infidels?' A mob of Turks, armed with revolvers and knives, then looted the market and massacred the helpless Armenians.

Their bodies were thrown into the wells, It is stated that the Mudir was responsible for the attack. No women or children were injured, probably on account of the arrival of the Kaimaikan from the village of Gieve, three miles distant, who made valiant efforts at the risk of his own life to save the Christians. Otherwise the slaughter would have been complete.

No Official Confirmation of the Queen

of Corea's Death. WASHINGTON, Oct. 15.-There is still no official confirmation here of the reported assassination of the Queen of Corea and although there may be political motives for a concealment for a time of such a tragedy officials here think it possible the Queen may be alive, as the dispatches are somewhat doubtful on this point. It is recalled that a similar state of affairs existed in Corea in 1882 and the report was circulated that she was dead. At the time this same Tai Won Kun, the father of the King, who is said to have led the last attempt on the Queen's life, attacked the palace with a large band of adherents and captured the persons of the King and Queen. The Queen was condemned to be poisoned, but by the sublime devotion of one of her handmaidens she escaped. The maid took the poison and the Queen was secretly carried by her friends and hidden in the mountains, while the repor was sent out that she had been killed The Chinese government, which maintained its suzerainty over Corea almost entirely through the active support and sympath of the Queen, took active steps to redres her wrongs, and, sending a large force of troops to Corea, reinstated her and her husband on the throne and carried the old Tai Won Kun off into exile in China, from where he was subsequently released.

Two cable messages were received by Secretary Herbert to-day from the Asiatic station. One briefly announced the arrival of the gunboat Petrel at Chemulpo and said nothing in regard to the state of affairs in Corea. The other message simply announced the arrival of the Machias at Shanghai.

LONDON, Oct. 15 .- Truth says that the statement that the Sackville pamphlet was intended to drive the United States embassador, Mr. Thomas F. It cannot be denied, however, that Mr. Bayard availed himself of Lord Sackville's injudicious act to excite an anti-English agitation to assist the candidacy of Mr. Cleveland, and therefore it reflects great honor on England that our government has been so dignified and magnanimous to welcome, as it has, Mr. Bayard as an embassador."

It consisted of an unprecedented number of human skeletons of very ancient date, along with flints, weapons, utensils, religious emblems and the like. in great variety and of diverse material, including some ornaments in gold and silver, as well as bronze. The find is regarded rich and wonderful as a mere

curiosity and also as a great acquisition for ethnological science. Another special from Milford says: On Upper Stone Lick creek, near here, M. C. Cowen, a surveyor, while engaged in laying off farm property, found a prehistoric cemetery of great extent containing thousands of graves. W. K. Moorehead, curator of the State Museum, opened some of them and found pipes, beads, pearls, spearheads and other trinkets. Men are now digging and finding relics hourly.

Indian Cases Before the Supreme Court-Ex-President Harrison to

Appear in an Irrigation Case.

Special to the Indianapolis Journal. WASHINGTON, Oct. 15 .- The published figures of the condition of the treasury this afternoon fully vindicated the statement made in these dispatches at the beginning of this month, when there was \$3,000,000 for September, that by the mid-

penny was expended to-day for the Indian Bureau. This bureau, which averages about a million a month, has been held ent time. This is but an indication of the policy pursued. The deflett for the fiscal year is already over nineteen millions. The instructions have been issued to as nearly seven millions as possible and for the remainder of the month the statement will be garbled day by day until that figure is reached Mr. Worthington Ford, chief Bureau of Statistics, recently published a

carefully prepared statement setting forth that the receipts of the government from all sources for this fiscal year would nue and \$16,000,000 from sources, a sum sufficient to meet all expenditures for the year. Treasury officials have studied Mr. Ford's figures very carefully and they agree that his figures are substantially correct. They add, however, that if there is any discrepancy between the forecast and the final results it will be that Mr. Ford's figures are too high. With that statement they demolish Mr. Ford's roseate assurance that there will be no deficit at the end of this fiscal year. For, if the receipts of the government are penditures for the 000, six millions more than limit. Moreover, there must be added this year the interest on the two bond issues put out by Mr. Cleveland during the presyear to replenish the gold reserve. This will add \$5,000,000 more if the figures can be kept down in all other matters to those of last year. It is possible that Mr. Ford, before preparing his statement, had a conference with Controller Bowler was told by that puissant gentleman how much money he would consent to have
